

## The Table Saw Specialist

Sliding table saws for a wide variety of applications. Each saw is tailored to your needs, and all options are combinable and can often be retrofitted based on the current state-of-the-art.

### Altendorf F 45

Designed for professionals, the F 45 redesign surpasses previous values in terms of torsional rigidity and low vibration. The smooth front and the foot clearance on the floor allow you to stand closer to the sliding table saw. Precision cuts, low maintenance, and eye-level control are additional benefits.

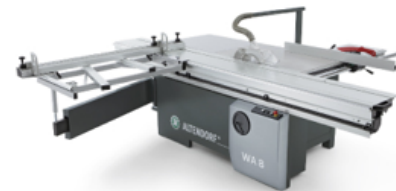

### Altendorf WA 80

With a 150mm blade protrusion, the WA 80 cuts through panels and solid wood with ease. Maximum cutting length of 4300mm, at 7.5 kW. machine can be customized for your needs.

### Altendorf WA 8

Ideal for cutting panels to precise dimensions. Manual rise/fall adjustment, the rip fence and crosscut fence are easy to set. Maximum cutting height 82mm.

### Altendorf WA 6

Ideal for shops with limited space and budgets, without compromising quality. Suitable for beginners and professionals. Maximum cutting length is 2500mm, with a maximum cutting height of 117.5mm.
