

SOUTHWORTH®

Lift Tables Pallet Pal Pallet Positioners Container Tilters

Hydraulic Lift Tables allow workers to position work at the most comfortable convenient height for easy, strain-free access. With a wide range of capacities, lifting heights, platform sizes and other options, including portability, turntables, tilt tops and hand pallet truck accessibility, there are literally millions of configurations of ergonomic lift tables available.

The **PalletPal** Family is a full line of products designed to speed and simplify the process of manual pallet loading and unloading. Many PalletPal Pallet Positioner models feature automatic load leveling and built-in turntables.

Southworth **E-Z Reach Container Tilters** eliminate unnecessary bending, reaching and stretching in machine feeding applications. Wire baskets and other containers are tilted to allow workers easy access to their contents - even those at the bottom. Southworth offers more models and configurations of container tilters than any other manufacturer.
