- Easily installs on either side of the saw
- Front fence application reduces material waste
- Fast and accurate measurements
- Intelligent angle compensation

SawGear® Double MiterPro™

Automated Material Positioning for Double Miter Saws

Double MiterPro™ provides an easy way to integrate SawGear® with your new or existing double miter saw. This automated front fence retrofit installs on either side of the saw, providing waste reduction and fast and accurate cuts.

All units include Crown+MiterPro™, letting SawGear® do the math with its intelligent angle compensation software. Factoring in the width, angle, and desired length, be assured your cuts are right the first time.
